Jafra Cosmetics International Inc. will create up to 40 new jobs with the opening of a distribution and warehouse facility this spring in Lewisville.

Westlake Village, Calif.-based Jafra has signed a lease for 64,222 square feet of space at the Majestic Airport Center DFW at 2670 Edmonds Lane in Lewisville.

The new hub, which will serve the United States, including Puerto Rico, will replace existing distribution facilities in California and New Jersey. Operations will begin shifting to Lewisville in March, said Brian Chase, senior vice president of worldwide operations.

Thirty-five to 40 people will be hired, including management and supervisory positions, warehouse workers and employees to compile product orders, Chase said.
