WHAT:

The State of Texas and the North Texas RCIC will announce an ETF investment in Biometric Signature ID. The NTXRCIC is pleased to present their 39th ETF invested company for the North Texas region. A brief check presentation at the headquarters of Biometric Signature ID in Lewisville will take place with guests from the entrepreneurial community and the State of Texas.

WHO:

Biometric Signature is an Information Technology company with encryption technology that will disrupt the marketplace with its patent pending technology. The newest member of the ETF family, Biometric Signature would like to invite the North Texas community to visit their labs and operations to see the technology first hand. Members of the press, academia, government and the technology industry will be in attendance.

The company will join 38 other companies that have previously received their ETF awards from the State of Texas. The NTXRCIC client companies have received over \$53M in commercialization awards.
